Introducing the new GRAFIK Eye® QS

As the pioneer of preset lighting control since 1982, Lutron continues to lead the way for innovative solutions with the new GRAFIK Eye QS. The GRAFIK Eye QS provides convenient control and enhancement of the visual environment for the people inside the space.

Here is how the GRAFIK Eye QS is improving architectural lighting control:

Simple to operate

Large, engravable, backlit buttons and a language selectable information display.

Easy to design and integrate

Connections to shades and A/V devices without an interface, direct powering of occupancy sensors, and new adaptive power modules that can handle magnetic and electronic low-voltage interchangeably.

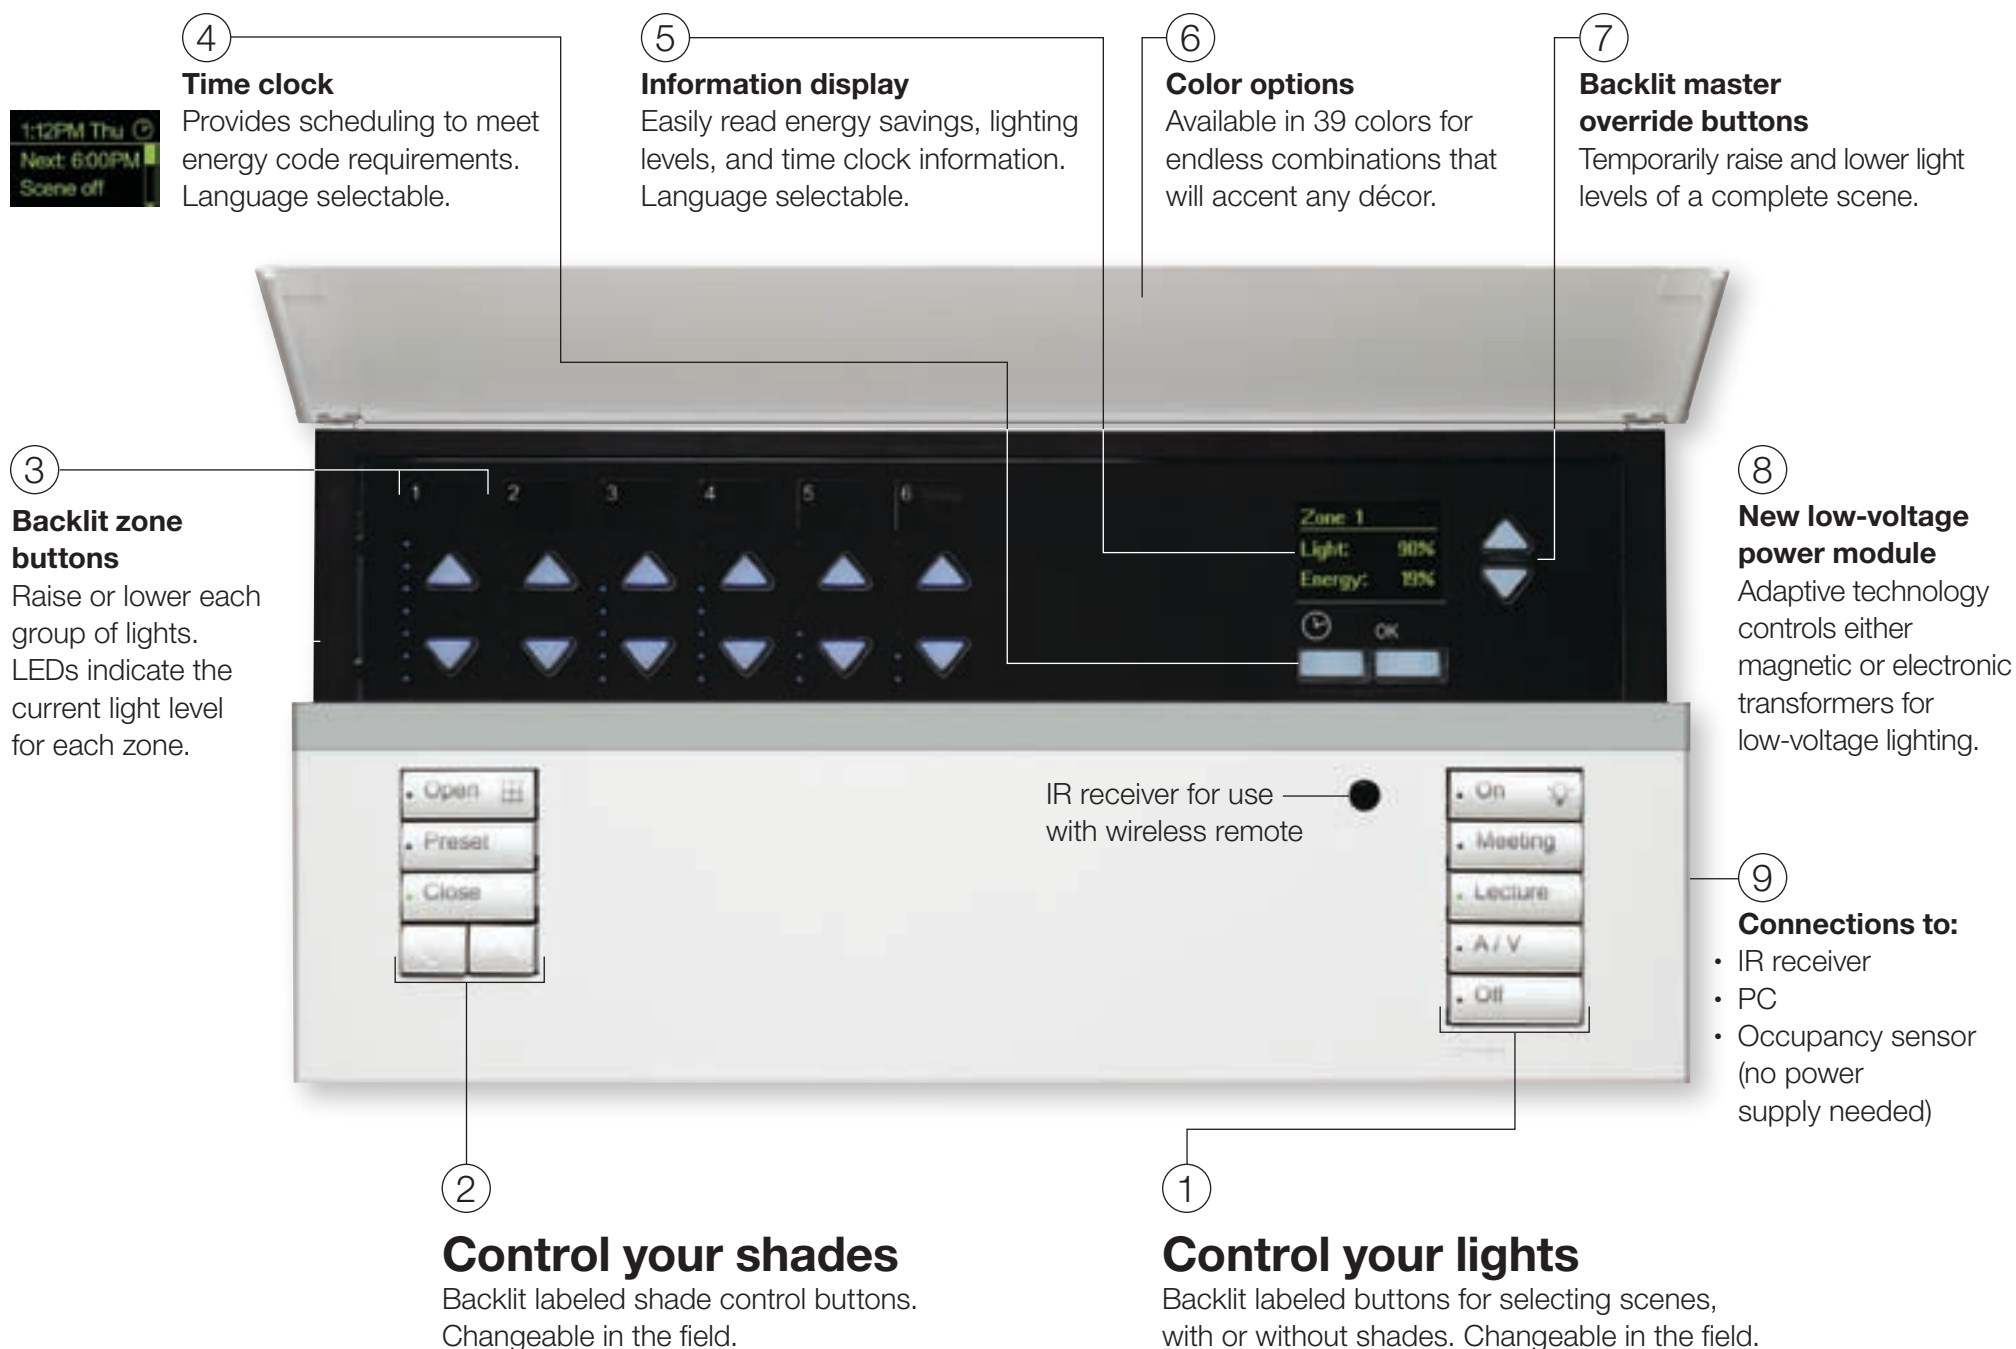

Saves energy

Energy savings indicator, built-in time clock, and direct connection to occupancy sensor.

More architectural options

Fully selectable number of shade zones (0, 1, 2, 3) and 39 colors and finishes.

9 new features for better lighting control and energy savings

Control your lights and shades

GRAFIK Eye® QS connects with the following:

Sivoia® QS shades
for natural light control.

seeTouch® QS accessory
for intuitive control
throughout the space.

Occupancy sensor
for energy savings
and code compliance.

Power module
that enables control of a higher
wattage or different electrical load.

Commercial applications

Ideal for conference rooms and meeting spaces as well as public places such as restaurants and lobbies.

Residential applications

Well-suited for home theaters, kitchens, and living/family rooms. Multiple units can be linked together to control various spaces throughout the home.
